Dear Parents,

We hope that this letter finds you filled with all the joy and excitement that the holiday season brings.

We are excited to inform you that a dedicated group of parents and educators have joined together to form the **New Milford Education Foundation**. The Foundation is a private 501(c)(3) non-profit organization committed to improving the quality of education in our schools and the experiences of our children in their daily lives.

Part of the dream of every parent is our shared wish for our children to be more successful than we are and, in this new era, our children will be faced with many challenges. They say it takes a village to raise a child and truer words have never been spoken. In these more difficult economic times, it will be our responsibility to ensure that they receive the best possible product from our educational institutions.

We are confident that our Foundation will work to enhance and expand learning programs for each school in the district, improve the facilities that our kids will use for most of their childhood, and provide a broader set of tools with which our teachers can work. We will foster initiatives to help our children succeed in higher education and their future careers.

As a completely independent institution, the New Milford Education Foundation will also act as an advocate on your behalf and will work on the projects that matter most to you, as parents. In the coming months, we will ask all of you for your support. We will soon update you on some of the specific projects we will be tackling in the near future and will ask for volunteers to help with the important tasks that lie ahead. The best form of support will come from financial contributions from the community at large. Your tax deductible gifts will have a direct and significant impact. For more information on how to make a contribution, please e-mail us at info@newmilfordfoundation.org.

Thank you in advance for all of your support and we wish you a happy holiday season and a prosperous New Year!

Sincerely,

The New Milford Education Foundation

Alison Fischer
