

Thank You!

Enormous thanks are due to the citizens of New Milford who came out to support the school budget! In speaking with a number of residents and parents of school children, they see the positive track the schools are on. They understand and embrace the district's direction and because of that were able to vote with knowledge and the conviction that New Milford schools are most definitely "on the move." I, district administration, and the New Milford Board of Education are most appreciative for the efforts of the PTO's and the engagement of parents in exercising their voice at this critical point in the renaissance of New Milford schools. Because of this support, we will be able to continue to provide quality educational services for all students and to emerge as a model of fiscally responsible school innovation and creativity for Bergen County.

Sincerely,

Michael Polizzi
Superintendent of Schools
