The New Milford Community

New Milford is a suburban community located in the heart of northern Bergen County, New Jersey. The community covers two square miles and is located approximately ten miles from New York City.

The town of New Milford consists primarily of single family residences. It currently has a population of 16,400. Like so many communities in New Jersey and throughout the nation, its school-age population is growing. A recent referendum provided the means to expand facilities at the town's middle school and at its two elementary schools.

New Milford High School's recently articulated mission statement is quoted below.

New Milford High School's Mission

“The mission of New Milford High School, which serves a small, diverse community, is to:
engage all students in the pursuit of their individual potential within a broad and balanced educational program;
nurture creatively, productivity, responsibility, and citizenship;
ensure a safe, challenging, and supportive environment; and
encourage a pursuit of lifelong learning.”

Class Rank

Class rank is determined by computing a grade point average (GPA) for each student at the end of the 6th, 7th, and 8th semesters. All students are included in the ranking procedures. Pluses and minuses (e.g. A+/B+/C-) are computed in rank. Audited courses are not included. The factors considered in computing class rank are the grade earned in the course, the level of the course, and the number of credits assigned for the course.
